

# Unit 6 — Risk Management

## Activities, Exercises & Assignments

### Reflection

- What are the most significant risks in your facility?
- How can supervisors minimize risks before they escalate?

### Activities

1. Identify and list 5 risks in your facility and propose prevention strategies.
2. Conduct a mock safety audit and record findings.
3. Case Study – A near-drowning occurs despite staff presence. How do you handle it and prevent recurrence?

### Assignment

- Write a risk management action plan tailored to your facility.
